

CombiCable™

A combined suspension and power supply for lighting

US Patent Pending

- Aesthetic
- Simple
- Compatible
- UL listed and CSA approved

The Power of One

CombiCable™ is a combined 5-core power supply and hanger support system for lighting, integrated together into a single neat installation. Utilizing a hanger rope at the center, the 5-core cable safely transfers the weight of the light fixture to the ceiling.

This innovative solution is supplied as a pre-stripped length of 5-core cable attached to a 7/8" fixture insert, and includes a low profile canopy assembly with strain relief and crossbar. Each CombiCable™ kit contains everything required to suspend a light fixture of up to 17 lbs (more with secondary supports) to a standard junction box.

Aesthetic – Fully integrated load bearing cable for a neat and professional installation

Simple – Single point entry into light fixture, pre-assembled and pre-stripped ends

Integrated – A ready to use kit with all components needed to go from ceiling to fixture

Versatile – CombiCable™ is available in black or white

Compatible – Fits a 7/8" light fixture knockout and 4" fixture rated junction box

Safe – Supports 17 lbs at 4:1 safety factor, with UL 62, UL 1598, and CSA approval
