

Continuing Professional Development SEMINAR

Gripple is an expert designer and manufacturer of suspension solutions for mechanical and electrical services, modules, lighting, acoustics and signage. Gripple's core building services seminar can be seen below, and this content can be adapted to meet your specific requirements.

Gripple's CPD seminars tend to take place at a premises of your choosing, where Gripple can provide a complimentary lunch to make full use of your time. The seminars tend to be around an hour in length, and CPD certificates can be made available to all attendees on request. Requirements for longer presentations on a specific subject of your choice relating to suspension systems, and evening events can also be accommodated.

Topic: Wire and Track Systems for Building Services Installation

This CPD will provide the listener with an understanding of the different methods of suspending building services, as well as the embodied carbon, health & safety and time saving benefits that can be gained when switching from traditional methods. Learn how Gripple's product specifications are tailor-made for the built environment and can help you achieve the requirements of your construction project.

Gripple is able to conduct CPD seminars in-person or if preferable, our CPD is also available to attend online. Please contact Gripple for more information.

Prefer to visit us instead?

Your CPD seminar can be held at Gripple's site(s) in Sheffield, South Yorkshire. Here, the CPD seminar can be accompanied by a tour of the company's manufacturing facilities.

What can you expect from our CPD?

Our 'Wire and Track Systems for Building Services Installation' seminar covers the following topics:

Overview of Traditional Suspension Systems

Wire Rope, Catenary & Track Suspension Systems

Benefits of Using Gripple:

- Environmental
- Labour savings
- Health & safety
- Aesthetics
- Fire ratings
- Installation design & Gripple support

Our CIBSE approved CPD seminars are perfect for mechanical and electrical engineers, designers and specifiers!

The 60 minute CPD sessions include a 15 minute Q&A section and a complimentary lunch can be provided to all those who attend, courtesy of Gripple Ltd.
